“Aegis Corporation is the source for risk management solutions. We are an industry leader in providing broad-based, client focused insurance programs and services and specialize in the development and implementation of association and alternative risk financing programs as well as providing a full-line of business insurance coverage. Our staff specialists have broad experience in risk management, alternative risk financing, claims and litigation management, regulatory accounting, underwriting solutions, reinsurance brokerage, pool remediation and leadership training.

We have strength in virtually every type of risk management service and our greatest asset lies in our ability to combine these programs and services to provide clients with the greatest flexibility for meeting their needs.”
